PROJECTS

Pet Grooming Web Application https://www.amazingpetgrooming.ca |
Full Management System for a Small business. This React Application was built for a Pet Grooming business. The admin of the page is able to add employees to the system, so they can login to the staff page based on roles, where they can manage the clients' database, add appointments to their own Calendars and adjust their working hours. Customers are also able to book appointments online. This Application solved several issues this business faced in the past and it was designed, deployed, and maintained by myself.

Printing-Memories https://www.printingmemories.com |
Ecommerce web application
This full-stack-app allows users to create products for sublimation, pay for them, and receive confirmation emails. It was created using React Js, Node Js, Express, Stripe, Pure Css, SASS.

My Pet Grooming App https://www.mypetgroomingapp.com/ *Platform for Pet grooming Businesses*
This full-stack application allows small business owners to handle their schedule, their clients, and their services. It is a subscription-based service where clients can try the application free of charge for 15 days and if they decide, they can subscribe to the membership. It was built using Javascript, ReactJs, NodeJs, PassportJs, MySql, Css, GraphQL, SASS,
